SECRET FILES

Someone has been tampering with these top-secret files on the Doctor and Rose. Correct them by ticking the sentences that are true and putting a cross by the 'facts' that are false.

THE DOCTOR

1. The Doctor is from a far distant planet.
2. He travels through space in a rocket.
3. He is over 900 years old.
4. He has two hearts.
5. He owns a sonic spanner.
6. He's a big fan of Charles Dickens.

ROSE TYLER

1. Rose used to live on the Powell estate in London.
2. She met the Doctor during a Dalek invasion.
3. She is 16 years old.
4. Her mother's name is Jackie.
5. She used to work in a department store.
6. Her old boyfriend's name is Mickey.

KNOW YOUR ENEMY

Recognising monsters is an important skill. Not all of them are evil, but should Earth ever be invaded, it's vital you know who's who! Why not copy out the descriptions below on to pieces of card to make your own monster file?

You'll find the words in **BOLD** hidden in the word grid below; up, down and diagonally — ring them when you find them. Look closely and you'll find a word that describes them all!

The Nestene Consciousness controls all plastic. Is that just a shop dummy behind you, or an **AUTON** — one of its deadly slaves?

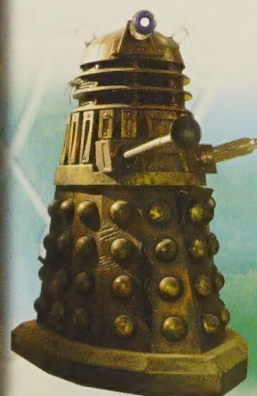

The gaseous **GELTH** can live in dead bodies and want to overrun the living!

The **FACE OF BOE** is another alien VIP, watching Earth's last moments through its giant jam jar!

The Moxx of **BALHOON** is an alien VIP observing the destruction of Earth in five billion AD.

The **DALEK** race wants only one thing — to exterminate all other life forms!

If ever there's a weak spot in the fabric of time and space, you'll find a cloaked, shadowy **REAPER** waiting to come through to our world...

The **JAGRAFESS** is a massive meat-monster intent on holding back the progress of the human race.

The **SLITHEEN** are an evil criminal family from Raxacoricofallapatorius.

CASSANDRA is the last living human, if you can call her that — she's more like a big stretch of skin with an attitude problem!

TARDIS TRIP

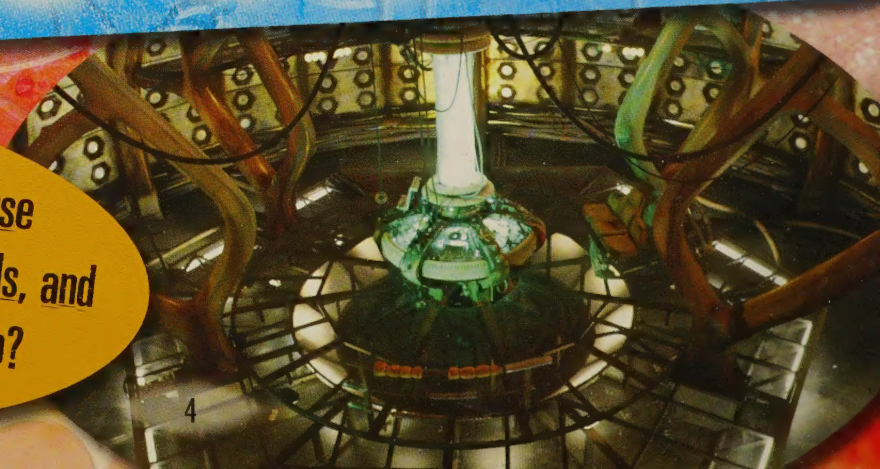

The Doctor is ready to take a trip in the TARDIS through outer space. Where will he end up? That's down to YOU and your special course code....

Count the number of letters in your first name. If the number is 6, then this is your course code. If the number is more than 6, subtract 4. If it is less than 6, add 3. Now read the chart from the left to right. The letters which appear with your course code will spell the name of the planet you'll be visiting in the TARDIS.

6 J	7 M	4 V	3 P	5 S	8 G	4 O
8 R	6 U	8 A	4 R	5 K	4 T	3 L
7 A	4 I	6 S	8 J	3 U	6 T	8 I
6 I	5 A	7 R	6 C	3 T	8 C	4 S
3 O	6 I	7 S	8 K	5 R	6 A	5 O

Why not work out the course codes for your family and friends, and find out where they'll end up?

THE PLANET PREDICTOR

The Doctor is teaching Rose a clever, crafty system that helps him predict what people are thinking. He calls it the planet predictor, and it goes like this...

1. Pick a number between 1 and 10 (including 1 or 10).
2. Multiply your number by 9.
3. Add together each digit of the number you made in step 2.
4. Subtract 4 from the number you made in step 3.
5. Find the letter in the alphabet that goes with the number you're left with. 1=A, 2=B, 3=C and so on.
6. Pick a planet — in the solar system if possible — that starts with the letter you found in step five.

The Doctor thinks he can guess which planet you've chosen. Use a mirror to look at the word below, and find out if he was right!

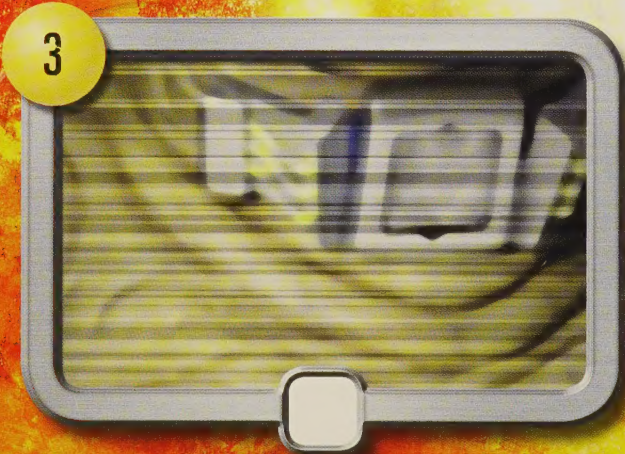

EAVTH

Learn his secret by turning to the answers on page 23.

SCANNER SEARCH

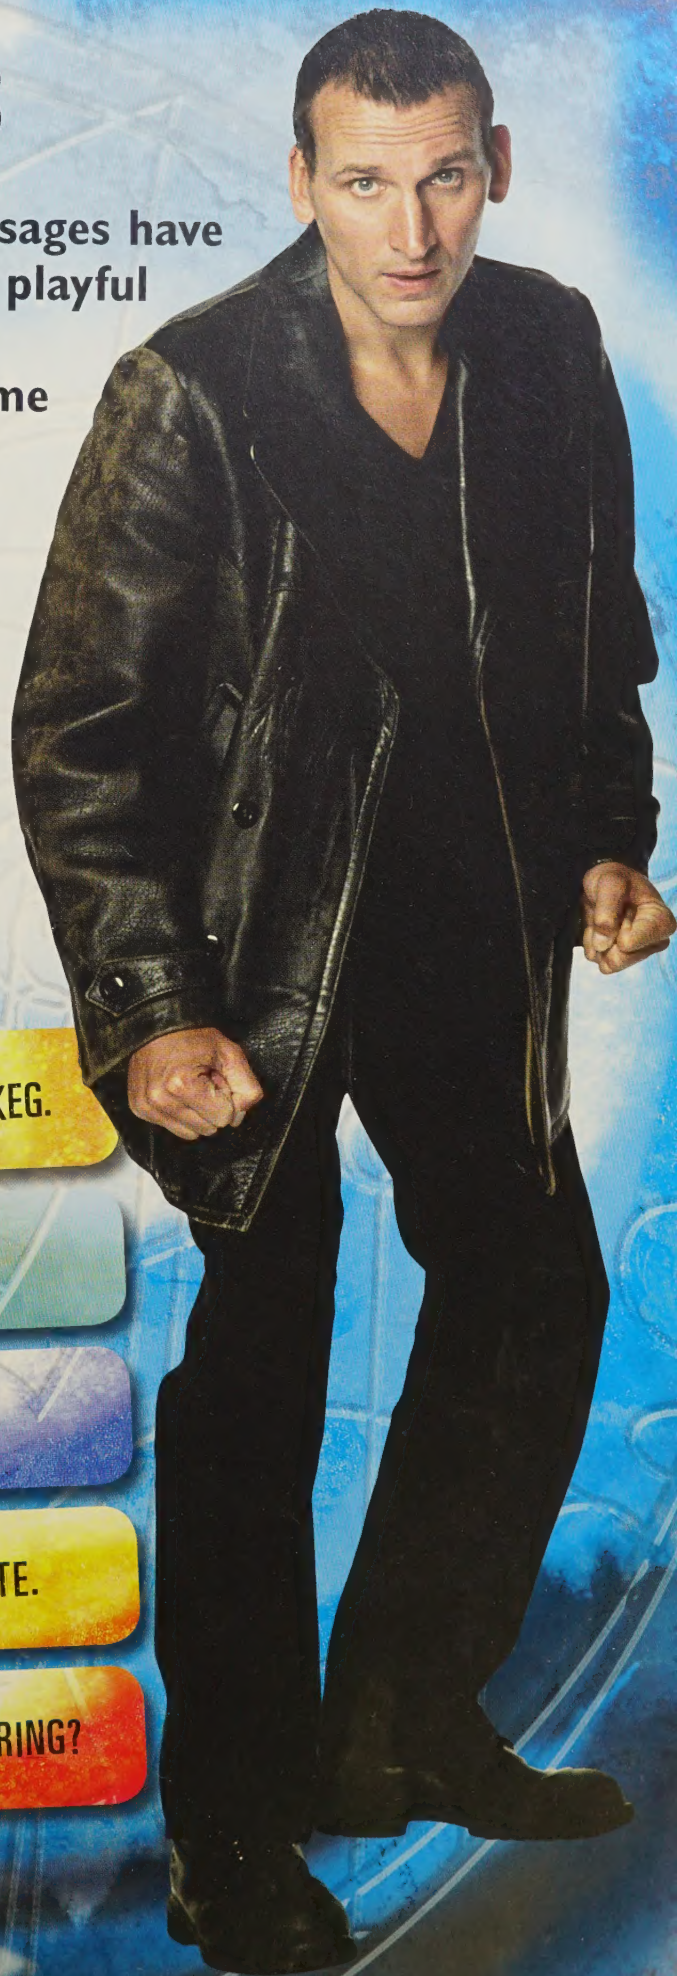

A fault in the TARDIS has led to the scanners being jammed on close-up magnification. Look carefully at the following images, and help the Doctor see what he's looking at! There's a box under each screen. Colour it green if it's safe to go outside – colour it red if there's danger!

MYSTERIOUS MESSAGES

The following mysterious messages have been sent to the Doctor by a playful celestial intelligence. He soon realises that the names of some of his deadly alien enemies are hidden in four of the sentences – and something he knows very well is hidden in the other.

By reading the sentences carefully, letter by letter, see if you can find the hidden words. If you need help, look at the list of monsters on page 3!

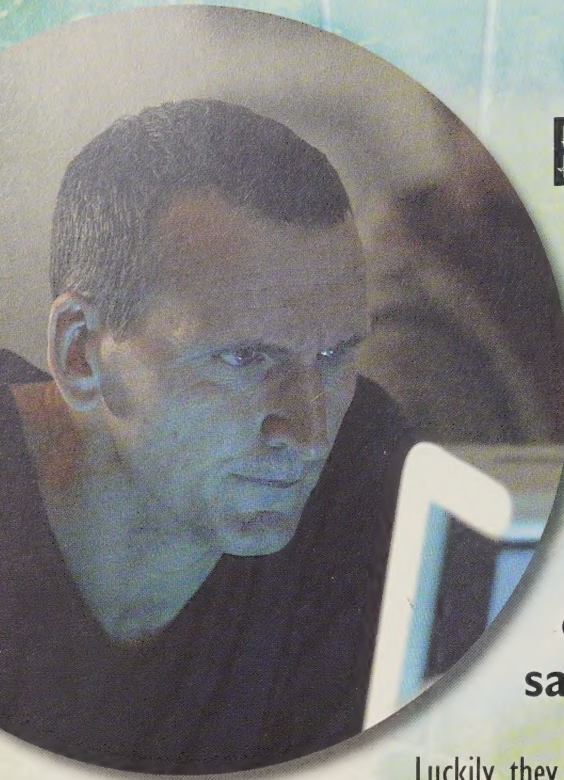

1 ALIEN MENACE HIDDEN IN AN OLD ALE KEG.

2 THE ANGEL THAT GUIDES US.

3 A PLASTIC ASTRONAUT ON SATURN?

4 SCYTHES ARE A PERSONAL FAVOURITE.

5 SEE THAT STAR DISTANTLY GLIMMERING?

ESCAPE CODE

The Doctor and Rose are trapped on a dying spaceship that's about to crash, with no way out! Rose searches the computer for emergency instructions, but the data has been scrambled. If they can't work out what the message says, they are doomed...

Luckily they soon realise that each alien symbol stands for one letter of the English alphabet. Can you complete the key below and translate the message?

A	C	D	E	H	I	L	O	P	R	S	T	W

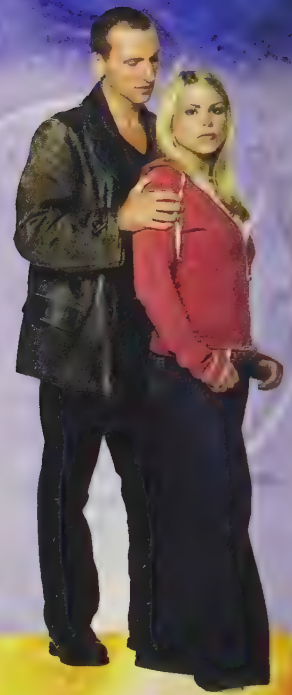

SPLIT IMAGE

This Dalek is getting ready to recharge, using Rose's DNA to help rebuild itself! The incredible energies have caused six mysterious differences to appear between these two images. Can you find and circle all of them?

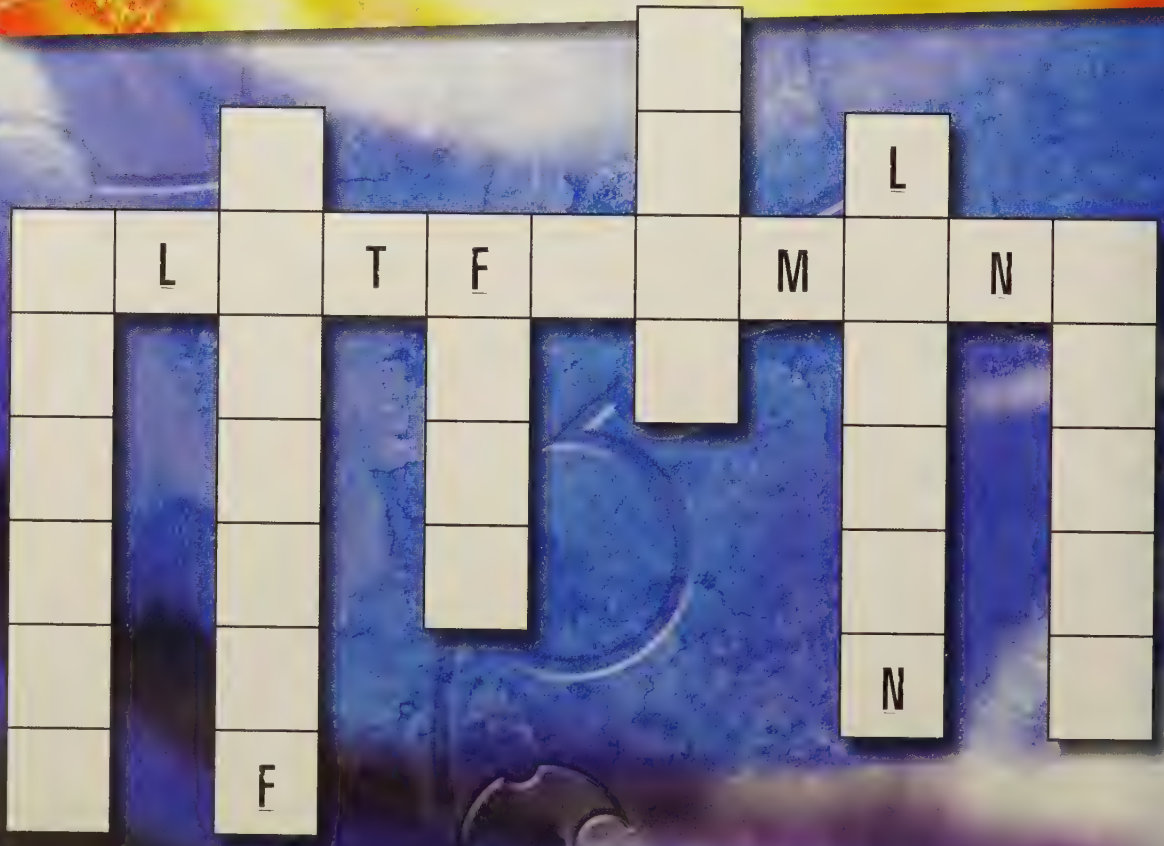

DESTINATION MATRIX

The Doctor and Rose have been reflecting on some of their recent travels. In the grid below, there is space for seven places. First, solve the clues to find each location. Then study the grid to work out which word goes where!

1. The TARDIS can land on any p_____ in the universe.
2. The Doctor and Rose met Charles Dickens in C_____, the capital city of Wales.
3. The red planet M_____ is our neighbour in space.
4. Rose's home planet is E_____.
5. Alien VIPs gathered on the luxury space station P_____ O_____ to watch the end of the world.
6. The evil Jagraffess lurked on the futuristic news network station Satellite F_____.
7. The Slitheen family gathered in L_____ ready to destroy the Earth.

TRANSLATOR GLITCH

The TARDIS translation circuits are on the blink, and have scrambled the names of some of the crew. Work out the anagrams and match them to the pictures below.

1. HOTTER COD

2. TROY REELS

3. I'M SHY, TICK ME!

4. JAN, PICK A CAT

5. LIKE RACY JET

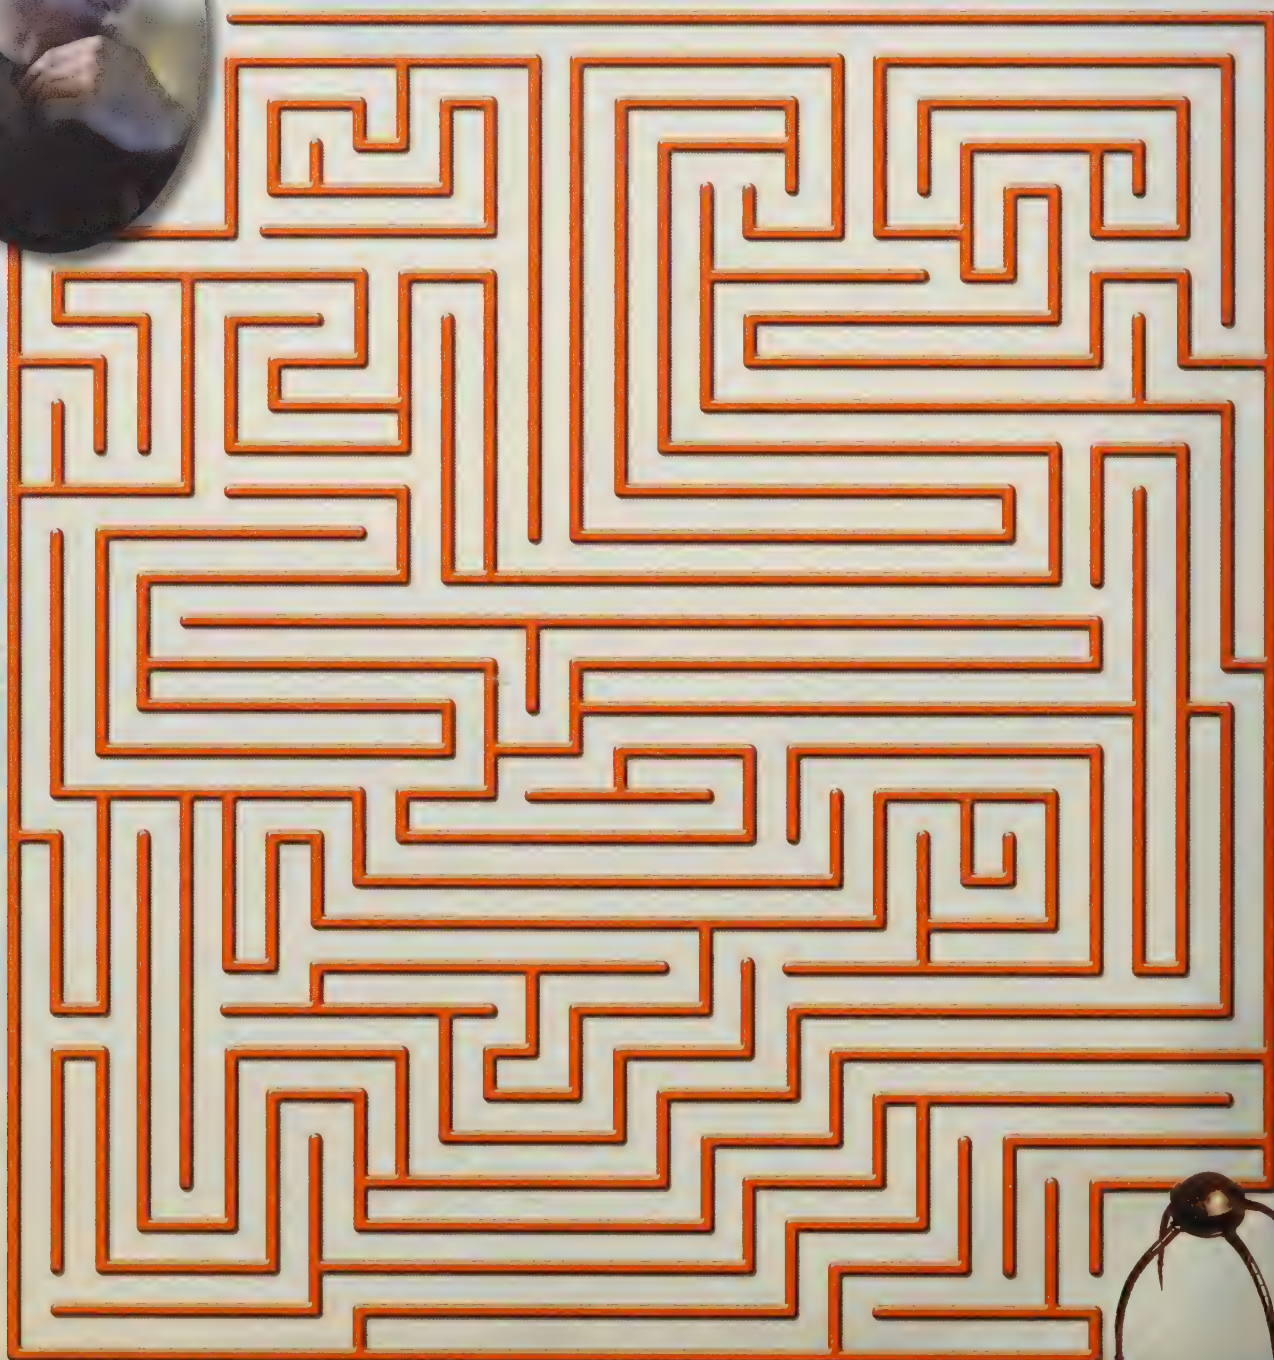

F	S	D	T
I	G	W	L
T	V	P	E
P	D	G	A
A	W	R	F

Cross out every letter that appears twice in the grid to the left to spell out the name of the precious metal the Doctor needs to fix the translation circuit.

THE PATHS OF PERGOSS

The Doctor has discovered that one of the evil Cassandra's stainless steel spiders has slipped through a gap in space-time to the planet Pergoss. He must capture it before it starts sabotaging the maze-like Pergossian city. Can you help him find the one true path – before it's too late?

SLITHEEN-SEARCH

Harriet Jones MP has prepared a top secret government report on the Slitheen family's invasion of Earth:

When a **spaceship** crashed into **Big Ben**, the entire world was alerted to an alien invasion. But the only thing on board was a **pig**! It was a trick played by the Slitheen, monsters made of living **calcium** with huge **claws**, to put the Earth on red alert so we'd fire our **missiles** and blow up our world for them. They disguised themselves in human **skins**, but could be destroyed by concentrated **vinegar**. In the end, the mysterious **Doctor** stopped them by blowing up 10 Downing Street!

All but **two** of the words in bold are hidden in this word grid — seven in total. Ring each word as you find it. Then unscramble the letters left over to find a nearby planet which might have been the Slitheen's **next** target!

P	I	G	E	R
I	S	M	B	A
H	N	U	I	G
S	I	I	G	E
E	K	C	B	N
C	S	L	E	I
A	V	A	N	V
P	S	C	N	U
S	W	A	L	C

SHUNT THE SLITHEEN!

Slitheen fugitives have blown up the planet Leannon, and now they're escaping by teleporting to different places in space. Luckily, the Doctor predicts their route and shunts them off course to another world – delaying them long enough for the authorities to reach the planet Rourke ahead of them and bring them to justice.

You can follow the Slitheen's race through space yourself. The names of the planets are hidden in the grid below. Moving up, down and across (but not diagonally) – and using each square only once – you must travel from LEANNON and pass through PALDONIA – TERRA BETA – BEDOOL – ESTO – OLNIA – NILO and finally ROURKE. You'll also pass the place the Doctor shunted them to along the way – write down its name in the space below.

T	E	R	R	A	B	E
A			E	B	A	T
I	D	L	D	O	O	L
N	O	A	L	O	O	N
O	N	P	E	S	T	I

THE MISSING WORDS

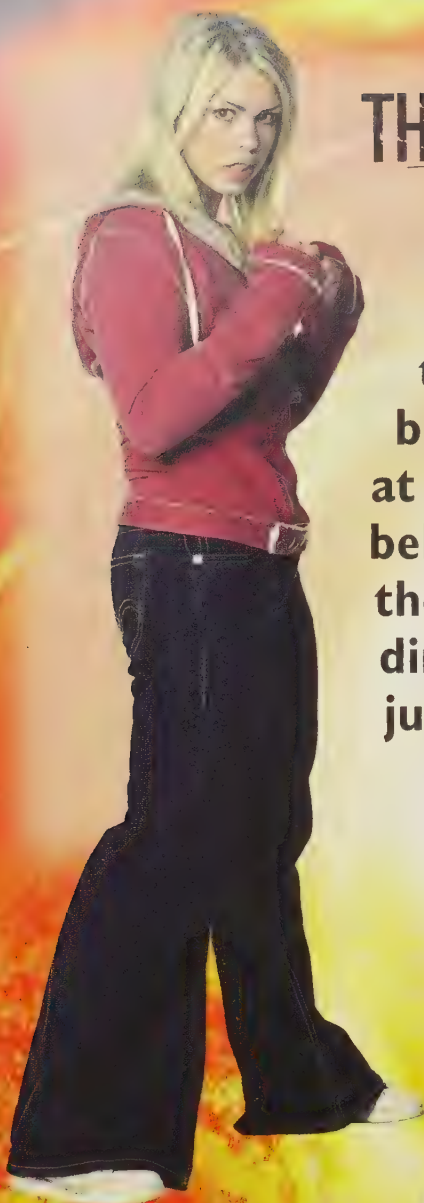

Answer the questions and fill in the blanks below. Use the answers to fill in the missing letters in the grid. When all the words across are complete, they will spell a single word reading down – the Doctor's true identity.

1. Rose's surname is _____.
2. The Doctor and Rose have saved each other's _____ many times.
3. The _____ race is often menaced by aliens.
4. The Doctor travels through time and _____.
5. Rose and the Doctor fight _____ wherever they find it.
6. Distant planets are often home to _____.
7. The Doctor is a true _____.
8. The _____ is the Doctor's space craft.

THE STAR OF STELIOS

The TARDIS has landed on the planet Stelios. It is the custom of the Stelions to set all visitors a number puzzle – but maths was never Rose’s strongpoint at school! She must place the numbers below into the circles on the star so that the four numbers in a straight line in any direction add up to 40. Use your skill and judgement to help her finish the puzzle!

LETTER DRIFT

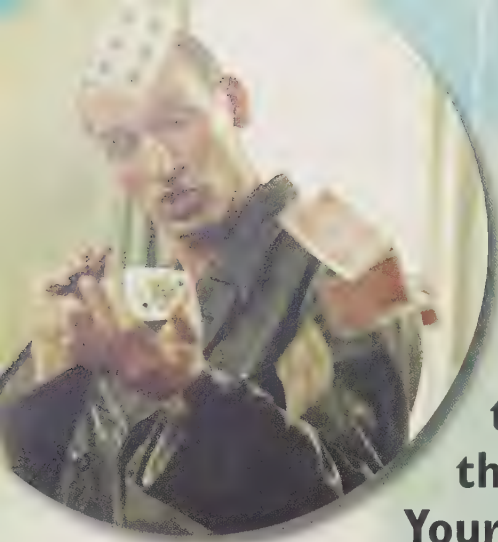

The Doctor is the greatest hero of all time... and he's also the last of the Time Lords!

Changing just one letter at a time, can you turn the word HERO into TIME and TIME into LORD, in just 4 moves? Rose has filled in a couple of the words to help you.

Unscramble the phrase below to learn what sets a Time Lord apart from a human. Clue — you'll find them beating in the Doctor's chest...

THE DALEK DESIGN

So you think you know what a Dalek looks like... care to put it to the test? The Doctor has scrambled this picture of a Dalek into 9 squares.

Your task is to take one square at a time and carefully copy it into its proper place

on the empty grid below.

You should end up with your own picture of a fully functional Dalek – gaze on it and be afraid!

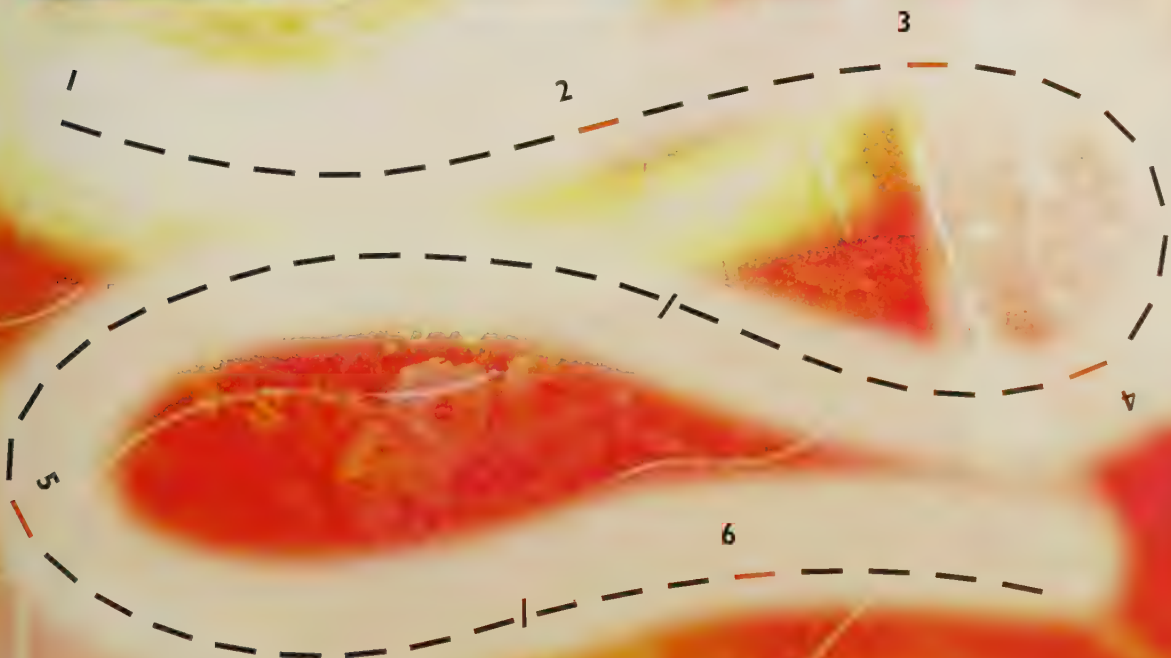

MONSTROUS MESSAGE

A mysterious warning is transmitting from space. Due to warp compression, the *last* letter of each answer has become the **first** letter of the next. To read the message, solve the clues below, then write down the answers in this continuous word chain... and watch the skies for signs of attack!

1. In the far future she's the last human in the universe — and she's evil!
2. Plastic human replicas that kill with hidden guns in their wrists.
3. Huge, green creatures with big black eyes and killer claws.
4. The controlling power behind the Autons — a throbbing face of plastic.
5. The news station that was taken over by the evil Jagraffess.
6. This blue and green world is a favourite target for invasion.

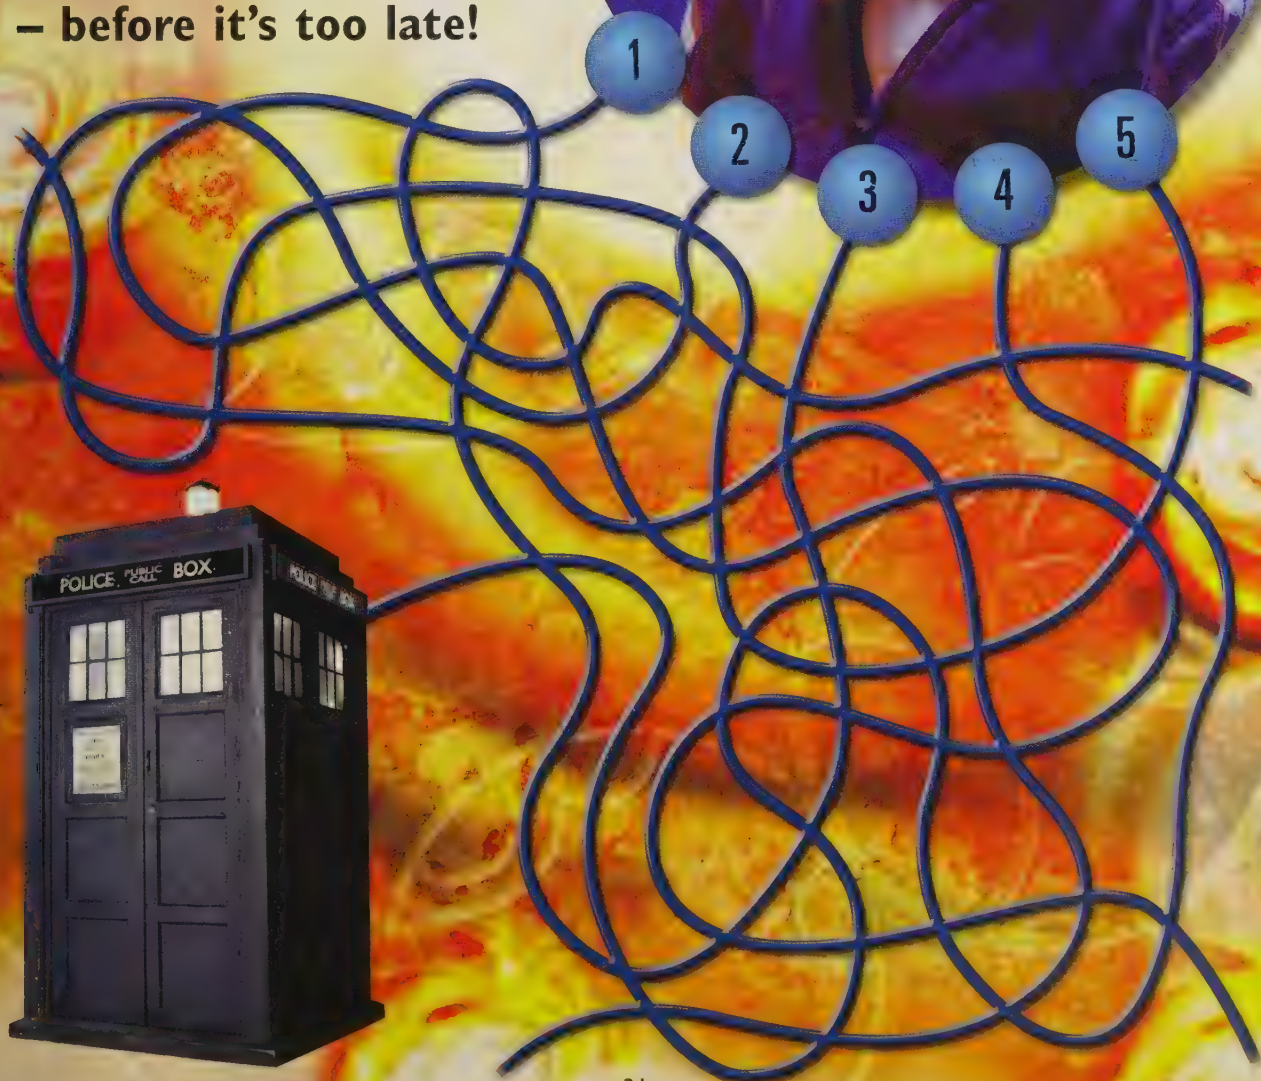

AUTON ATTACK

The Nestene Consciousness has made Auton replicas of the Doctor and Rose. Far from saving the world, these deadly doubles will destroy it! But the Nestene made a total of six small mistakes when creating these creatures – can you defeat the plastic parasites by spotting them all?

CATACOMBS OF DEATH

The Doctor and Rose have been captured in the catacombs of the planet Mandragg – but the only way they can escape these manacles is to get back to the TARDIS. They have five paths to choose from, but only one will lead them to safety – the others lead only to doom in the planet's deadly gas pits. You must find the safe route back to the ship, quickly – before it's too late!

SHADOW PLAY

The strange dark-light on the planet Shayde turns all visitors into shadows for the length of their stay. Can you recognise the life forms below solely by their silhouettes?

THE PLANET PREDICTOR

Whichever number you choose between 1 and 10, if you multiply it by 9 and add up the 2 digits you will always get the answer 9. So when you subtract 4 you will always be left with 5. There's only one planet in the solar system that starts with the 5th letter of the alphabet... Earth!

INTERGALACTIC SPACE RACE

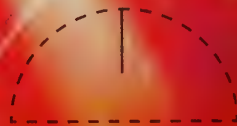

2-4 players

Can you save the Earth from a myriad of monsters? Join the Doctor and Rose as they race through time and space, defeating Earth's enemies, and saving the planet from destruction...

You will need

- A die
- cardboard
- round-ended scissors
- safety glue

1. Once you've finished all the activities and checked your answers, carefully cut out this page and stick it to a piece of cardboard.
2. When the glue has dried, cut around each of the characters and stands, and slot the stands into the slits at the bottom of each playing piece.
3. Carefully detach the board game from the back of the book, and unfold onto a flat surface.
4. Now you're ready to play! Choose your character and take turns to roll the die and move around the board, following any instructions that you land on.
5. The winner is the first player to make it safely back to Earth.
